**ADDENDUM NO. 2
to the contract for**

**Muirfield Drive Bike Lanes
13-025.1-CIP
Bid Date: June 20, 2014**

TO PROSPECTIVE BIDDERS: The following changes shall be made part of the contract documents for this project:

Request for Information

1. Item Special – 8" Reinforced Concrete Slab, As Per Plan – Are all of the catch basins requiring the 8" slab the same and if they are 2-2B or S-133A? The survey only identifies the catch basins as catch basin or catch basin round. Ten of the catch basins requiring the 8" slab are listed as round. I looked at the existing plans for Muirfield Drive and most of the catch basins are called out as Inlet Type A or C. There are a few catch basins called out in other plans for Muirfield as 2-3 and 2-2B. There are 2 that require 8" slabs near Glick Road shown on the Glick Road intersection plans as AA-S133.

- a. It will be up to the Contractor to verify the shape and dimensions of the various structures being capped with the 8" concrete slab
